GIATI'S SOPHISTICATED INDOOR/OUTDOOR TEXTILE COLLECTIONS NOW AVAILABLE "DOWN UNDER"

GIATI Designs, an innovator in the manufacturing of sophisticated and elegant European all weather textiles, introduces their luxurious **ELEMENTS** fabric Collections to Australia and New Zealand. Their newest introduction, **The Antebellum Collection**, is inspired by the lavish pre war lifestyle of the American South. Antebellum evokes images of stately plantations amid grand oak trees, dogwood forests and Spanish moss. Tantalizing fragrances emanating from gardens with abundant flora fill the air. It is a refreshing group of designs that reflect the grace and style of an opulent bygone era.

The Arabian Nights-Oasis Collection, is another spectacular collection inspired by the romantic and mysterious period of the silk and spice trade with the Far East. This exotic assemblage evokes images of sultans, princes and princesses who traveled the desert in large caravans replete with extravagant fabrics, jewels, gold and spices. They were the originators of the outdoor luxury lifestyle.

The Summerland Collection is a group of wonderfully woven interior/exterior textiles from original designs inspired by the colors, textures and elements in nature. "Creating fabrics for outdoor use opens a window on the world. These are fabrics that will reflect sunlight and play with shadows. At the same time, they have the sophistication to enhance indoor environments. These are patterns and textures that bring nature's richness to any setting." says Glenn Peckman, designer of **Summerland**.

Each collection is replete with gorgeous patterns, textured weaves, stripes, bouclés, chenilles, sheers and solids, in an array of imaginative and stunningly coordinated color combinations.

All textiles are comprised of 100% solution-dyed acrylic and are guaranteed against fading, splitting, peeling or cracking. These striking textiles are also water and mildew resistant, as well as sunfast. The collection is the ultimate choice for both residential and commercial applications.

GIATI Designs, Inc. is headquartered in Santa Barbara, California.
