FOR IMMEDIATE RELEASE...

**GIATI'S EXTENSIVE LINE OF INDOOR/OUTDOOR FABRIC COLLECTIONS
HAS THE LOOK AND FEEL OF COTTON**

GIATI Designs, Inc., is extending their line of five luxurious fabric collections with special properties that make them suitable for both indoor and outdoor use. **Giati Textiles** is composed of five individual collections, Giati, Montage, Jacquard, Jacquard en Plus and Jacquard Encore. These beautiful imported French fabrics have the look and feel of cotton and the strength, durability and water resistance of fine solution dyed acrylics.

These striking fabrics come in a vast array of colorful patterns, solids, stripes, moirés and other highly designed effects. Some are completely reversible. All jacquards are woven on a jacquard loom. Available in a variety of different weights, these fine fabrics are easily draped, pleated and tucked, while at the same time are extremely strong and completely water resistant. They can also take a vigorous scrubbing. All **Giati Textiles** are guaranteed against fading, splitting, cracking, peeling or hardening.

Giati's innovative collection of exquisite textiles is unique in the market today. Their wide range of dynamic patterns and brilliant colors makes them an ideal choice for interior and exterior upholstery treatments, cushions, draperies, umbrellas, pavilions, and awnings.

GIATI Designs, Inc. is headquartered in Santa Barbara, California. Manufacturing facilities are located in Santa Barbara. Giati products are available through a national network of designer showrooms.
